VENDOR MATERIAL DISCLOSURE & END-OF-LIFE RECYCLING PROFILE

Technical Parameter	Vendor Declared Value & Regulatory Classification
Material Composition	100% Virgin Polyvinyl Chloride (PVC) plasticizer blend with chlorinated polymer base.
Intended Product Lifespan	Single Event Usage (1 cycle). Designed for temporary promotional display (disposable).
Municipal Recyclability	Non-Recyclable (< 5% regional facility acceptance). Composite plastic scrim prevents standard curbside mechanical recycling.
Post-Event End of Life Route	Landfill / Municipal Solid Waste Incineration. Standard local commercial waste stream.
Environmental Product Declaration (EPD)	None Available. Supplier has not commissioned third-party verified ISO 14025 Type III EPD documentation for this production lot.
Freight Logistics & Scope 3 Distance	Shipped from central converting warehouse in Ohio: 480 km transit via diesel freight carrier.

TERMS & PRE-PURCHASE AUTHORIZATION NOTICE:

This quotation is valid for 30 calendar days from the date of issue. Commercial terms: Net 30 days upon delivery. Buyer acknowledges that products fabricated from non-recyclable virgin polymers may be subject to municipal single-use disposal surcharges and corporate Scope 3 ESG audit disclosures. In compliance with enterprise procurement bylaws, this document must undergo Pre-Procurement Lifecycle Assessment and Sustainability Firewall review prior to binding purchase order execution.
